ITEMIZED PRICING OPTIONS

(E2617)

AIREZ CUSTOM BACK OPTIONS

- AIREZ CUSTOM BACK (MACB) \$2,498**
Standard configuration includes:
 - 3D-printed, ultra-lightweight, breathable and adjustable back
 - Breathable and lightweight mesh liner
 - Custom-fitted breathable spacer fabric cover
- ABS-X (MAB-ABS) + \$485**
The same AIREZ back with an additional ABS-X shell. The ABS-X shell increases rigidity and support for high tone or spastic clients. While also accommodating additional accessory mounting.
- AIREZ SMOOTH (MAB-S) No Charge**
This option creates a smooth back surface, instead of the hallmark open wave pattern seen on the original AIREZ.
Note: This option does reduce airflow compared to the original AIREZ.

SPECIFY BACK WIDTH

- Standard Trochanter Width <20" (MAB-TSW) No Charge**
- XL Trochanter Width (21"-24") (MAB-TXLW) \$355**
- Specialty size (>24") (MAB-TSPW) Contact for pricing details**

BACK HARDWARE OPTIONS

CENTER MOUNTED

- Ultra Lightweight (VTMH) \$395**
Slim profile, lightweight, and moderately adjustable - works with all chair types.
- Radian 360 (RAD) \$595**
Robust with maximum adjustability - requires round canes.

DIRECT CANE MOUNTED

- VersaMount 2-Point with Seat Bracket (VRMH-2) \$1,635**
Heavy-duty knob and bracket hardware - for tilt-in-space & non-folding manual chairs.
Includes: a universal T-nut pattern installed onto the back (CFI-UTP), and a seat positioning tray (SC-SPT) with a pre-installed universal T-nut pattern.
- VersaMount 4-Point (VRMH-4) \$735**
Heavy-duty knob hardware with 4 contact points.

DIRECT TO BACK MOUNTED

- Power Wheelchair Interface (PWCI) \$658**
Easy installation, minimal seat depth loss, and moderate adjustability - PWCs only.
The Power Wheelchair Interface adapts to various mounting brackets, including but not limited to: TruBalance 3 and 3-HD, TruBalance 4, Edge Stretto, Permobil 3G, Rovi, and Merits power wheelchairs.

ITEMIZED PRICING OPTIONS

(E2617)

BACK HARDWARE OPTIONS

OMIT HARDWARE

- Omit Hardware** (RAD-0) No charge
The following options do not include hardware, just interfaces and pre-installed T-nuts for aftermarket hardware installation.
- Center Mount Hardware Interface** (CMI) \$147
Printed interface with pre-installed T-nuts for aftermarket center mounted hardware installation.
- VersaMount 2-Point Hardware Interface** (VRMH-02) \$212
Printed interface with pre-installed T-nuts for aftermarket knob and bracket hardware installation with a seat bracket. Includes: a universal T-nut pattern installed onto the back (CFI-UTP), and a seat positioning tray (SC-SPT) with a universal T-nut pattern.
- VersaMount 4-Point Hardware Interface** (VRMH-04) \$212
Printed interface with pre-installed T-nuts for aftermarket 4-point hardware installation.

ULTRA LIGHTWEIGHT HARDWARE (VTMH)
Slim profile, lightweight, and moderately adjustable.
Chair Types: Any
Rotation: 15° Depth Adjustment: 0 - 3"

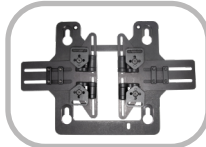

RADIAN 360 HARDWARE (R360)
Robust hardware with maximum adjustability.
Chair Types: Any
Rotation: 360° Depth Adjustment: 0 - 5"

VERSAMOUNT 2-POINT WITH SEAT BRACKET (VRMH-2)
Heavy-duty knob and bracket hardware, for complete system mounting.
Chair Types: Manual & Tilt-in-Space

VERSAMOUNT 4-POINT (VRMH-4)
Heavy-duty knob hardware with 4 points of contact.
Chair Types: Non-folding manual and tilt-in-space
Rotation: 3° Depth Adjustment: 0 - 3"

POWER WHEELCHAIR INTERFACE (PWCi)
Easy install, minimal seat depth loss, and moderate adjustability.
Chair Types: Power Wheelchairs ONLY
Rotation: 10° Depth Adjustment: 1 - 3"

BACK HARDWARE MOUNTING OPTIONS

- Cane Claws - Round Mount** (R360-CC) No charge
- Surface Mount - Flat Mount** (R360-SM) No charge
- Quick Release Hardware Upgrade** (R360-QR) \$95

ITEMIZED PRICING OPTIONS

(E2617)

BACK LINER OPTIONS

- 3D Mesh Liner (Standard)
- Therapeutic Premium 3D Mesh Liner Upgrade (AFBU) \$177
Recommended for users with compromised skin integrity or requiring tilt for pressure relief.
- Additional Therapeutic Mesh Liner, Installed (AFBU-EX) \$177
Note: The secondary liner may reduce positioning accuracy.
- Memory Foam Liner Upgrade (MFBU) \$205
Note: The memory foam liner does reduce airflow through the back.

BACK COVER OPTIONS

- Spacer Fabric Cover (Standard)
Open mesh material for maximum airflow.
- Additional Spacer Fabric Cover (CVRB-SF) \$345
- Dartex-Style Cover Upgrade (CVRBU-DAR) \$205
Smooth, and anti-microbial with silver-infused fabric.
- Additional Dartex-Style Cover (CVRB-DAR) \$550

ADDITIONAL BACK COVER OPTIONS

- Additional Incontinence-Proof Exterior Cover (CVRB-IP) \$550
Smooth, waterproof, and wipeable - a reverse dartex-style cover.
- Privacy Flap (R360-PF) \$150

BACK ACCESSORIES

- Universal Headrest Mount (CFI-HR) \$175
 - Omit Installation (CFI-O) No charge
- Accessory Mounting Rails (MCB-IM) \$271
 - Omit Installation (MCB-O) No charge
- Shoulder Harness Guides (MCB-SHG) \$200
- Shoulder Harness T-Nut Pattern Upgrade (CFI-STP) \$350
Pre-installed T-nuts for easy shoulder harness guide installation.
- Custom T-Nut Pattern Upgrade (CFI-CTP) \$350
Must notate location on the shape capture bag.

ITEMIZED PRICING OPTIONS

(E2617)

GROWTH OPTIONS

- Growth Kit** (MCB-GK) \$486

The AIREZ back growth kit allows for one growth adjustment, during a 24-month coverage period. The growth adjustment only covers back height or back width. Changes in body shape or postural alignment cannot be accommodated through the growth kit.

BACK MOLD MODIFICATIONS

- Extend patient LEFT lateral support ___" forward of the line. (MCB-EDL-L) \$290
- Extend patient RIGHT lateral support ___" forward of the line. (MCB-EDL-R) \$290
- Increase patient LEFT lateral support ___" above the line. (MCB-IHL-L) \$190
- Increase patient RIGHT lateral support ___" above the line. (MCB-IHL-R) \$190
- Extend back height ___" above the line. (MCB-EBH) \$290

Cushion options are on the following pages.

ITEMIZED PRICING OPTIONS

(E2609)

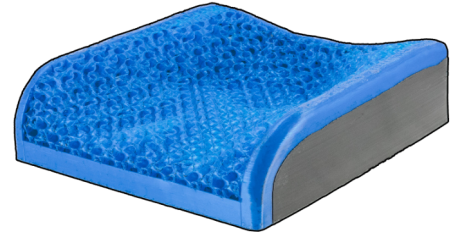

CUSTOM CUSHION OPTIONS

3D PRINTED CUSTOM CUSHIONS \$2,374

Standard configuration includes:

- 3D-printed custom molded breathable cushion
- Custom-fitted breathable spacer fabric cover

- THE ORIGINAL AIREZ (MACSC)**
A completely 3D printed cushion. The solid base layer provides rigidity and support. Meanwhile the soft top layer provides comfort and airflow.

POSTURE-FIT CUSTOM FOAM CUSHIONS \$2,374

Standard configuration includes:

- Custom molded foam cushion
- Waterproof removable interior cover
- Custom-fitted breathable spacer fabric cover

PLEASE SELECT THE TYPE OF FOAM:

- POSTURE+ FOAM (MCSC-PP)**
A higher-density foam, engineered to provide both exceptional support and comfort for patients requiring precise positioning.
- RELIEF+ FOAM (MCSC-RP)**
A softer and more versatile foam option, crafted to provide gentle, pressure-relieving support.

CUSHION WIDTH

- | | | |
|---|-----------|-----------------------------|
| <input type="checkbox"/> Standard Width 10" - 20" | (SS-W) | |
| <input type="checkbox"/> XL Width 21" - 24" | (SS-XL-W) | \$150 |
| <input type="checkbox"/> Specialty Width > 24" | (SS-SP-W) | Contact for pricing details |
| <input type="checkbox"/> Tapered Width | (SS-TW) | \$150 |

CUSHION HARDWARE & INSERTS

- | | | |
|---|----------|-------|
| <input type="checkbox"/> Integrated Mounting Platform ¹ | (SSMP) | \$395 |
| <input type="checkbox"/> Seat Positioning Tray | (SC-SPT) | \$350 |
| <input type="checkbox"/> Lateral Thigh Support Reinforcement ² | (SC-LR) | \$190 |
| <input type="checkbox"/> Gel Insert ³ | (SC-GEL) | \$998 |

¹ For sling seats; works with both AIREZ cushions, and Posture-Fit Foam cushions.

² Increases the lateral thigh support rigidity. Applicable only to Posture-Fit Foam cushions.

³ The gel is inserted under the ischials and sacral area, and layered with 1" memory foam on top.

ITEMIZED PRICING OPTIONS (E2609)

CUSHION COVER OPTIONS

- Spacer Fabric Cover** (Standard)
Open mesh material for maximum airflow.
 - Additional Spacer Fabric Cover** (CVRS-SF) \$200
